

Updates on Projects in the Town of Bloomsburg:

Ongoing Projects Around Town:

 **Pollinator Fields** – Recently cut back per Conservation District guidance. Public Works completed the work in-house with the boom mower.

 **Boat Launches** – The Town-owned boat launch at the confluence of the Susquehanna River and Fishing Creek is now open! Reminder: Town has **two launches**—one state-owned on Airport Road and the other Town-owned at the confluence.

 **Pickleball Courts** – The base is curing; weather permitting, the contractor will return mid-September to continue progress.

 **Solar Project** – Bids for rooftop solar installations at Public Works and Recycling are pending review at the next Council meeting.

 **Market Street Paving** – Contractor will be awarded on September 11th at a special Town Council meeting. Work will be completed this fall.

 **Airport Projects** – New concrete step and rail work began today. The jet fuel tank removal has been awarded to the third-lowest quote (\$6,000) to ensure proper DEP reporting.

 **Recreation Projects** – Tennis courts, basketball courts, and the skatepark paving project will go out to bid this fall, with work scheduled for Spring 2026.

Project Completed!

The Town of Bloomsburg is excited to announce that the **Kuharchik project (awarded May 2023) is complete!**

This \$957,801.10 project included:

- Improvements at Market & 5th Street intersection
- New crosswalk at Route 11 & Park Street intersection
- Signal retiming throughout Town

What's New? Pedestrians using downtown crosswalk buttons will now get a **6-second lead time** to cross safely before vehicle traffic starts.
